- No More Denials of Claims
- NO More Rationed Care – All Are Equal
- Focus on Preventive Health Care
- No More Bankruptcies for Medical Bills
- Same Quality of Individual Private Health Care that we have now

## ***FIGHT CORRUPTION AND CORPORATE GREED!***

*There is a bill in Congress RIGHT NOW, House Resolution (H.R.) 676, "Expanded and Improved Medicare for All" that will establish a single-payer National Health Insurance System for all Americans that will cover everybody and everything at prices that we can all afford. The big health insurance companies are doing everything they can to kill H.R. 676 and deny its benefits to the American people. They are corrupting "our" Congress with massive payoffs and campaign contributions. They are forcing them to pass watered down programs that will not solve our national health insurance problems but WILL continue to protect their profits. But we the people CAN FIGHT BACK if we all join hands and work together NOW! **Time is short... Please Join TODAY!***

*If you believe that affordable health care for all Americans is worth fighting for, then join us today and your voice will be heard!*
